

CLEAN ENERGY CAREER FAIR

SPONSORSHIP OPPORTUNITY

The energy industry is experiencing rapid growth and there is a rising demand for people with expertise in energy-related fields. The **Clean Energy Career Fairs** offer students opportunities to learn about these promising career paths and how they can shape the future.

Join us in 2026!

Through our events, we aim to create a transformative experience to inspire students and empower educators towards building pathways to careers in the energy sector. **Become a sponsor and join us in increasing the pool of future job seekers** who will choose a rewarding career in the energy sector!

"Incredible, impactful, impressive. I've rarely attended an event with that many students from that many schools where there was total engagement from all involved. The teachers I talked to were all very glad for the opportunity."

-Jennifer Peck, PK12 STEM Consultant, CESA 10

"What happened yesterday will quite literally change the lives of some of the students who attended, and you did that for them. When we talk about making a difference in the youth of today, this event was the epitome of that."

-Joseph Phillips, Science Teacher, Osseo-Fairchild High School

CY26 SPONSORSHIP OPPORTUNITIES

Each Career Fair is a full-day event with multiple activities and stations throughout the day. Lunch may be offered for students, educators, and vendors. Slipstream will be delivering a total of **three Career Fairs** in partnership with Wisconsin utilities in 2026.

SPONSORSHIP BENEFITS:

- Generate job and internship leads
- Empower students and educators
- Build meaningful relationships
- Elevate your brand
